

All Round
Supplies

All Round Supplies:

Nexans Australmold stockist for WA

A white utility truck with a bucket lift is positioned in a grassy field. A worker in a yellow safety vest is in the bucket, working on a power line. Another worker is standing near the truck. In the background, there are rolling hills and a blue sky with many small, white clouds. A tall utility pole is visible on the right side of the frame.

We are a one-stop-shop for project, safety and tooling products, providing our customers with the most extensive range of products in the industry, excellent value and knowledgeable service.

Why work with All Round Supplies?

We have worked as electrical contractors ourselves, so we speak your language.

The headache and frustration caused by trying to get the right materials QUICKLY, CHEAPLY AND RELIABLY is what had us start All Round Supplies in the first place.

Don't spend more money than you have to. Avoid accidentally ordering the wrong product. Stay clear of suppliers with products that are not in stock, expensive deliveries that take too long and endless back and forth.

We feel your pain and we're here to help.

Completeness

We can quote the whole shopping cart. No more hunting around and juggling deliveries from multiple suppliers.

Speed

We deliver your products to you when and where you need them – fast. So you can meet your deadlines.

Technical Expertise

Not entirely sure of the best items for the job? We can help you choose the right products for your project and even preempt what you will need down the track.

Our experts can recommend the CORRECT/ APPROVED item. Avoid the headaches from accidentally using non-approved items.

Customised Delivery

Take advantage of our range of delivery options. From packaging your next delivery in a specific way, to scheduling the delivery of your order.

Get the items you need, precisely when you intend to install them.

Competitive Pricing

We strive to give you the best available prices every time.

Western Power

All Round Supplies has a unique partnership with Nexans Australmold in Western Australia. This relationship means that for our customers in this region, we're able to acquire any Nexans product at excellent pricing.

On this page, you'll find all the premade kits you'll need as a Western Power contractor. If you're working on any other network, head to page 6 to see the full Nexans Australmold range.

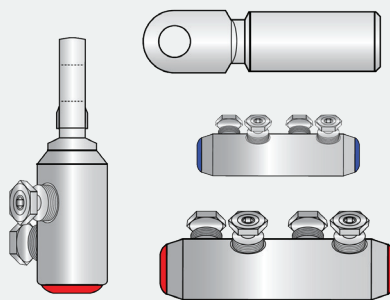

Give us a call to chat about what we can do for you, or take a look at the overview of Nexans Australmold products below:
